b-Carotene

Vitamins

**Chelated
Minerals**

Product of

VitaTrace Nutrition Ltd

VevoFertil plus:

- Specially designed to enhance the fertility of large and small ruminants
- Can be administered with feed to individual animals or included in rations for groups of animals
- The product dosage is flexible depending on the desired fertility improvement

It contains:

- Vitamin A for fertility improvement
- Vitamin E to support animal health and antioxidant status during the birthing period
- Organic form of manganese to improve conception rate.
- Organic form of zinc to support fertility, offspring survival and improve birth weight
- Organic selenium to enhance animal health and antioxidant status
- Beta-carotene, increases the survival potential of ovaries and ovum, reduces open days and improves overall fertility and conception. Additionally, it enhances colostrum quality.

Additives (per kg).

- **Vitamin A:** 541'667 IU
- **Vitamin E:** 5'417 IU
- **b-Carotene:** 3'250 mg
- **Manganese** (organic form): 5'417 mg
- **Zinc** (organic form): 5'417 mg
- **Selenium** (organic form): 21,67 mg

Instructions:

- **90-120 gr per cow, per day**
- **20-25 gr per sheep or goat, per day**

A higher dosage can be used for better results (depending on the fertility level of the farm and the recommendation of a veterinarian or animal nutritionist).
