for calves on fresh milk and
milk replacement diets

Manufactured by

ESTABLISHED 1978

VitaTrace Nutrition Ltd

VevoGuard is an additive for milk or milk replacer to support the health of the calf and aid the digestion of milk through the support of immunity and digestive activity in the calf.

- Specially designed to support and provide a shield to calves from the first day of their life.
- Includes Vitamin C and B-group Vitamins for the support of metabolism, appetite, and improves the antioxidant status of the calf.
- Reduces the variability of the nutritional value of fresh milk/colostrum in energy, minerals and vitamins Improves digestibility of milk and milk replacer.
- Reduces the incidence of diarrhoea Increases Average Daily Gain (ADG)
- Contains extra vitamins and chelated minerals to support the health and immune system of the calf during stress.
- VevoGuard contains a unique yeast cell wall probiotic/postbiotic that activates animals' immunity and supports gut health.
- Includes carefully selected phytogetic compounds with proven antioxidant and antibacterial action.
- Highly soluble Assists towards reduction of antibiotics
